

Digest

(Digestive Enzymes)

**CRYING, COLIC
AND BEYOND**

Supplement Information Page

Description:

Optimal digestion is dependent upon effective digestive enzymes. Whether breast fed or formula fed, this formulation assists with digestion to alleviate symptoms of occasional gas and bloating. Digestive Enzymes will assist your baby's digestion of proteins, carbohydrates, and fats. Supporting a more complete digestion and assimilation of nutrients helps to promote overall health and wellbeing.

Primary Benefits

- Improved Digestion
- Increased Nutrient Absorption.

Directions

- Babies under 6 months: Start with 1/2 a capsule mix in breast milk or formula and feed to baby.
- Babies over 6 months: Start with 1 capsule mix in breast milk or formula and feed to baby

Uses:

- Alleviates symptoms associated with digestive disorders, such as bloating, gas, indigestion, and malabsorption.
- Breaks down food more efficiently, reducing the amount of time that food spends in the digestive tract.
- Allows the body to absorb nutrients more effectively.

Cautions:

Not all digestive enzyme supplements are created equal. It's important to choose a reputable brand for quality and purity.
